April 4, 1942

Dr. Delzie Demaree
Arkansas A. & M. College
Monticello
Arkansas

Dear Dr. Demaree:

Another package of plants was received from you which I think I did not acknowledge. We are of course, glad to have them.

I have begun the determinations and enclose a list of the Lespedeza, which I have done to the best of my ability. This is a most confusing genus. Your material was very good. In three cases, however, you will notice that the identifications have been made "in part". In these cases there were two separate specimens with the same number and essentially the same data. I think it will not be difficult to differentiate between your own specimens.

Sincerely yours,

Bernice G. Schubert

April 11, 1942

Dear Dr. Demaree:

Here are a few more identifications of your Arkansas plants.

Sincerely,

Bernice G. Schubert
